

Epic Empowerment Next Generation Leadership

Epic Empowerment mission is to inspire youth and young adults facing economic, personal, and social hardships to take control of their future path. To do this, we lay the foundation for a secure environment, make connections with counselors, host families, community partners and business professionals, and build life-long skills

so every generation has a future to nurture and grow. Our epic vision is to build a culture of leadership through supportive mentorship that teaches young adults to foster personal growth and success and reject harmful aspects of modern society.

Five core values motivate us and drive our passion to serve young leaders in our community:

Security – we believe in universal access to secure housing, healthy lifestyles, and supportive

relationships.

Education – we believe a foundation for lifelong learning begins early in life by harnessing an individual's passion, and directly correlates with healthy living, positive relationships, exposure to new ideas and sharing knowledge with the next generation.

Inspiration – we motivate young people and fuel their intrigue through a reliable support system that nurtures their potential, ultimately inspiring them to guide others through challenging situations and lead lives of significance and value.

Mentorship – through leadership and coaching, our movement can develop and grow so all future generations have a support system that recognizes and celebrates their personal and professional milestones.

Faith – religious or otherwise, we instill faith in young leaders to choose their own path.
